REASONS FOR RUNNING FOR THE ELECTION

To help our Chinese Community -- I see our Chinese Community needs help and I believe I have the skills to fill that need.

MY VISION FOR ICCCI

ICCCI has made a huge effort to promote Chinese Community Activities, foster communication and understanding, and possible future collaboration among researchers and practitioners working in a wide variety of areas. However, the more and more Chinese immigrated to our community during past decade, which brought ICCCI an unprecedented challenge, but also an excellent opportunity. All the people in the ICCCI should take advantage of this opportunity to develop ICCCI into the most influential, most dynamic group in the region, providing the best service for our people (Chinese), for the whole community.
